I am confident that Anouchka Curtil (teacher) and the other instructors will take care of my child during the stay, take the necessary measures in an emergency, and encourage their awareness of cultural, scientific and artistic themes..

The activities at La Mandorla are organised by the **artistic and cultural association Tierra Altaï**, whose mission is to encourage awareness of environmental issues and a way of life that is more respectful of nature, to develop artistic talent, and create connections with different traditional cultures around the world.

I declare myself to be a member of this association, and to have paid my membership fee for the current year so that my child may participate in the activities it organises.
